Victoria Tsukanova

Senior Front-End Developer | UI/UX & Design Systems

Montreal, Quebec · Canadian Citizen · victoriatsukanova@gmail.com · 416 602-5706 · LinkedIn · Portfolio · GitHub

Senior Front-End Developer with 10 years of experience building web applications across ad-tech, analytics, and healthcare. Specializes in React, TypeScript, design systems, and accessible UI architecture. Combines hands-on UX design with front-end engineering, from Figma prototypes to production applications.

PROFESSIONAL EXPERIENCE

UI/UX Developer — 2017 - 2026

Pelmorex (The Weather Network) | Montreal, Remote

Developed and designed React and TypeScript applications for Pelmorex's advertising and analytics platforms, including a retail foot-traffic attribution dashboard and EngageFront, a programmatic advertising DSP.

- Developed interactive React and TypeScript dashboards visualizing retail foot traffic, visitation trends, audience demographics, and campaign performance, using data from REST APIs and GraphQL.
- Architected a shared React component library with reusable UI patterns and multi-brand theming to standardize interfaces across products.
- Created Figma mockups, layouts, and design-system components, translating UX requirements into responsive, production-ready interfaces.
- Maintained alignment between Figma design specifications and front-end components, including typography, spacing, design tokens, and interaction patterns.
- Proposed and implemented an incremental design-system migration, replacing foundational components while preserving existing themes to minimize production risk.
- Developed Next.js API routes and server-side report exports, extending application functionality beyond the client.
- Applied WCAG 2.1 AA accessibility practices, responsive design, and cross-browser compatibility standards to shared components and application interfaces.
- Identified security vulnerabilities, including unprotected report exports, and advocated for remediation ahead of scheduled penetration testing.
- Introduced AI-assisted development workflows using GSD and Graphify, and trained engineering teams on practical, cost-efficient AI tool adoption.

UI/UX Designer (Consultant) — 2021

Cardea Health | Toronto, Remote

- Designed a cardiology dashboard for a healthcare startup, collaborating with a cardiologist, machine learning engineer, and software engineer to define the MVP.
- Translated clinical requirements into Figma wireframes and detailed interface walkthroughs, providing engineers with a visual product specification.
- Designed workflows incorporating patient data and AI-generated insights, balancing clinical needs with engineering feasibility.
- Prioritized MVP requirements and feature scope around technical constraints and delivery deadlines.

Front-End Developer 2016 - 2017

Investors Group (IG Wealth Management) | Toronto

- Translated UI/UX mockups into responsive interfaces, maintaining visual consistency and reusable front-end patterns.
- Collaborated with UI/UX designers and Salesforce developers to resolve integration issues and deliver iterative improvements
- Developed production interfaces using HTML, CSS/Sass, and jQuery in a Lean UX environment.

Interaction Designer 2016

Investors Group (IG Wealth Management) | Toronto

- Designed user interfaces, screen layouts, and micro-interactions for financial services applications.
- Created UI style guides and defined interaction patterns and multi-screen states to maintain consistency across digital experiences.
- Collaborated with developers to translate design specifications into production interfaces.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, React, React Native, Next.js, HTML5, CSS3, Node.js, Redux Toolkit
UI/UX & Design Systems: Figma, Storybook, Design Tokens, Component Libraries, Multi-Brand Theming, Material UI, Tailwind CSS, Sass, Styled Components
APIs & Full-Stack Technologies: REST APIs, GraphQL, Next.js API Routes, Prisma, PostgreSQL, Auth.js
Testing & Accessibility: Vitest, React Testing Library, Playwright, WCAG, WAI-ARIA, Responsive Design, Cross-Browser Compatibility, Web Performance
Development Tools & Practices: Git, Bitbucket, GitHub Actions, Jenkins, Vercel, Webpack, Vite, Babel, ESLint, CI/CD, TDD, Agile/Scrum, Jira
AI-Assisted Development: Cursor, Claude, GitHub Copilot, ChatGPT, GSD, Graphify

EDUCATION

Full-Stack Development **2019**
Juno College of Technology

College Graduate Certificate, Web Design **2015 - 2016**
Sheridan College

College Diploma, Visual and Creative Arts **2012 - 2014**
Sheridan College
